

DON'T GET STUCK WITH THE SAME OLD RUBBER HOSE

THERMOPLASTIC HYDRAULIC HOSE

RUBBER'S YOUNGER, COOLER BROTHER.

Rubber hydraulic hoses have not changed much in the last 90 years; they utilize the same technology, product, and manufacturing techniques. Thermoplastic is a more advanced version of hydraulic hose, and in many applications, looks and feels like rubber! Don't settle for the outdated, stiff rubber hydraulic hose, when you can use its younger, cooler brother!

INDUSTRY LEADING HYDRAULIC HOSE

- **IMMEDIATE COST SAVINGS**

Thermoplastic often comes at a cost saving compared to rubber hydraulic hoses.

- **DEPENDABLE SUPPLY CHAIN**

While other suppliers may have issues sourcing their rubber products from overseas, we manufacture all of our thermoplastic hoses at our Peosta, Iowa facility and have the capacity to meet your requirements.

- **100% ON-TIME DELIVERY**

With ProPulse, you'll have one less thing to worry about. We have maintained a 99.99% on-time delivery rate for 3 years in a row. That kind of consistency doesn't just happen, we make it happen.

- **CUSTOM ENGINEERING**

At ProPulse, you get custom engineering options for your hose needs. Our team of engineers will work with you to ensure you are getting the right hose for your application.

- **IN-HOUSE ASSEMBLY**

ProPulse also provides in-house hose assembly. Because of our vertically integrated manufacturing process, we are able to keep costs low while maintaining quality and efficiency.

- **ZERO QUALITY ISSUES**

As an ISO 9001:2015 certified company, we value quality in all of our processes. We ensure that our thermoplastic hydraulic hoses can withstand the toughest environmental stresses. That's why our products are tested in-house to ensure controlled performance.

- **MADE IN THE USA**

Since we manufacture in the United States, lead times are greatly reduced and we can quickly react to increases in customer demands. Rubber hose, especially in today's supply chain, have lengthy lead times and large demands, pushing some delivery times up to a year. Our thermoplastic hydraulic hose provides a better alternative, in a more timely fashion.
